

# QTM Sustainability Overview

*Smart Solutions for a Greener Plastics Supply Chain*

At QTM, sustainability is built into everything we do. As a certified Woman-Owned Business, we help customers meet environmental goals without sacrificing quality, consistency, or performance.

## What We Offer

### Recycled Plastic Resin Solutions

RCS-certified polyethylene, polypropylene, and custom blends tailored to your performance needs.

### Custom Compounding

Sustainable polymer formulations developed for specific applications and industry demands.

### Lean, Sustainable Operations

Just-in-Time logistics, minimized waste, and responsible sourcing support greener production.

### Technical Support

From material selection to design-for-recyclability, our experts help you get the most out of recycled content.

## ***Certified Recycled Content***

QTM is proud to participate in the **Recycled Claim Standard (RCS)** — a global certification that verifies recycled inputs and responsible sourcing. RCS-certified resins ensure traceability and performance you can trust.

## **Markets & Applications**

- *Injection molding*
- *High-performance plastic parts*
- *Custom industrial polymers*
- *Circular manufacturing strategies*

## **Why QTM?**

- *RCS-Certified Materials*
- *WBENC & WOSB Certified*
- *Custom Resin Expertise*
- *Technical Guidance from Start to Scale*

## ***Partnering for a Sustainable Tomorrow***
